R – Reliable

I – Inviting

E – Engaging

N – Neighborly

D – Devoted

S – Sharing

OUR STORY

We are a group of four working professionals in the tech industry who wish to give back to the region that gave us so much support in our educational pursuits.

Our careers span across software development, finance, manufacturing, information-security, and management. With our years of professional experience, we are in a great position to offer our advice and share our knowledge.

We plan to partner with high school students across the area to provide them with the same mentorship and guidance we received when we were in their position. We believe this action is how generations grow stronger together and lead to a more compassionate, personal community.

CARING FOR PITTSBURGH

All of us are passionate about the Pittsburgh region and the opportunities the city affords to those who live here. It is our goal to help bring students into the professional field and help them navigate the challenges they will face throughout higher education.

Pittsburgh is home to a diverse student body poised to bring about great changes in the coming decades. We wish to do our part in bringing those changes to fruition.

“Now is the time to give back to our communities.”
