

# What is Capacity?

By: Your Kindergarten Teachers

Capacity is the maximum amount something can hold.

---

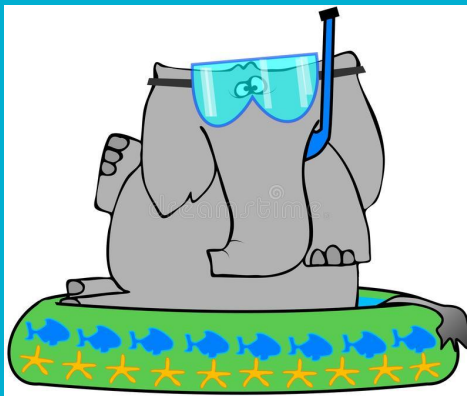

Look at the picture. Do you think this bathtub could hold the elephant? Nooo! This elephant is too big.

Choose the picture that can hold the elephant.

1.

2.

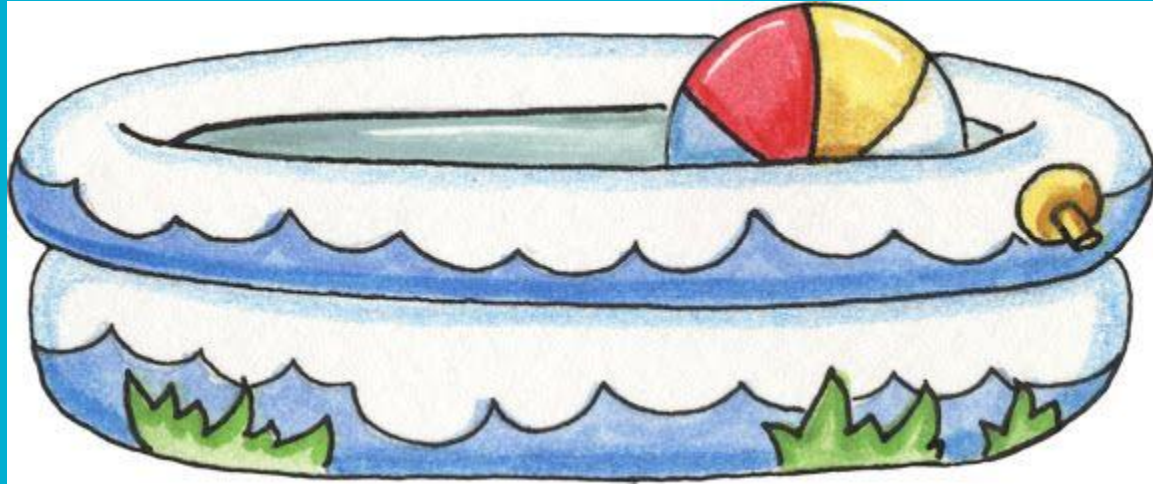

3.

Awesome job! Now, if you wanted to fill your own swimming pool up with water...

---

What container would you use?

Great thinking! Pretend like you're going to have a  
BIG picnic. What lemonade should you buy?

A can of lemonade

A bottle of lemonade

Nice! Last one..if Papa Bear was REALLY hungry, what bowl would you give him?

Wow! You did it! Now it's your turn. Can you find three different sized containers at your house? Fill them up with water and see which one can hold the most. \*Ask a parent to help so you don't make a big mess.

We miss you!
