

Name _____

Warning: Do not eat soap!

Milk "Magic" Experiment

Purpose: What will happen if you insert a Q-tip that had been dipped in dish soap into the milk/food coloring?

Hypothesis: I think _____

Materials Needed:

- Milk (must be whole or 2%)
- Shallow dish or bowl
- Food coloring (the more colors the better)
- Dish soap
- A Q-tip

Procedure: Pour 2% or whole milk into a shallow dish or bowl. Add 3 or 4 drops of each color of food coloring towards the center of the bowl (keep colors separated). Dip a Q-tip into some dish soap and then place the Q-tip into the milk/food coloring.

Results/Observations: _____

Conclusion: I learned _____
